## CITIES MUST PAY OWN WAY

Must Fill Their Own Purses  
From Own Earnings, Says  
Mayor Stitt Wilson

Flanked By Standpatters and  
Faced By Insurgents, He  
Talked to Students

SANTA BARBARA, Oct. 25.—Ad-  
dresses this afternoon by J. Stitt Wil-  
son, the Socialist mayor of Berkeley,  
and Frank Mott, mayor of Oakland,  
were features of today's program for  
the fourteenth annual convention of  
the League of California Municipalities.  
Speaking on the subject, "Re-  
form in Taxation," Mayor Wilson ad-  
vocated local option for California in  
taxation. He said in part:

"The wealth the individual creates  
should go to the individual. The val-  
ues which are created by social bod-  
ies by their very sociality should go  
to social bodies. Social bodies are as  
much a reality as individuals. The  
city in which we live should provide  
public utilities and civic equipment  
for all the people. And to do these  
things she must have money. That purse  
she must fill and refill from her own  
earnings.

"Before determining how the city  
shall collect her own natural wealth,  
and pay her debts, let us criticize the  
present methods. To say the least,  
the method by which California mu-  
nicipalities now collect their monies  
is very unsatisfactory. It is basically  
unjust, and produces civic and so-  
cial results of the gravest character.  
The impertinence of the city assess-  
or is unpardonable. He is compelled  
to nose into our private affairs in  
such manner as we would not endure  
under other circumstances. Such is  
the chaotic and unscientific inquisi-  
torial method by which the property  
is now assessed. And after all the  
social needs gape, and the city treas-  
ury is unfilled."

Mayor Mott spoke on "Municipal  
Government." He strongly favored  
the commission form of government,  
and upheld Germany's method of  
government as a good example.  
"Governments in our American  
cities," said Mott, "have much to do  
to raise the standards of civic life in  
affairs, material, social and moral.  
We have made but a beginning. It is  
our duty to educate the people to  
their privilege and opportunity. We  
must demand much of the people,  
and they must demand much of us."

## AVIS LINNELL NOT ALLOWED TO REST

Body Exhumed Twice and  
Thrice Examined; Neither  
Vial or Poison Found

BOSTON, Oct. 25.—The failure to  
disclose either a vial or a paper con-  
taining cyanide of potassium in the  
bathroom of Miss Avis Linnell, for  
whom alleged murder Rev. C. V. E.  
Richeson is held in jail here, caused  
the police to insist upon a second au-  
topsy on the girl's body which was in  
progress today.

This is the third time the corpse  
has been examined. The first exami-  
nation was performed after finding  
the body in the bathroom on the night  
of the girl's death, the second at mid-  
night last night, when the coffin was  
opened. Police Captain Armstrong,  
head of the Bureau of Criminal In-  
vestigation, demanded a third examina-  
tion, asserting dissatisfaction at the  
"haphazard manner" in which the  
first autopsy had been made.

It is not known just what the sec-  
ond autopsy will reveal, as all the in-  
ternal organs have been removed and  
sent to the Harvard University Lab-  
oratory for quantitative and qualita-  
tive analysis. The police are unable  
to determine how Miss Linnell dis-  
posed of the bottle or paper contain-  
ing the cyanide after she had taken it,  
if it was by this means that she met  
her death. They admit that this link  
in their chain of evidence against the  
young clergyman is weak, and are  
now advancing the theory that the  
girl took the cyanide in a gelatine  
capsule in powdered form. They say  
this accounts for the length of time  
it took for the drug to kill her, as  
cyanide usually causes instant death.

—If you have never used anything  
but a two-speed car you may think  
you are satisfied, but take a ride in  
a three-speed car through the hills,  
then see the difference. Wm. F. Lutz  
Co. handle the three-speed Planders  
"20."

## Flora To Reign Three Days In Foothill City

WHITTIER, Oct. 25.—Flowers,  
flowers everywhere will be seen  
tomorrow in the Quaker city of  
Whittier, when the Woman's  
Club of the city set in the hills, will  
present the fourth annual flower  
show.  
The floral event will be ushered  
in by a parade Thursday afternoon  
at 1:30 p. m. and will continue  
through Friday and Saturday af-  
ternoons and evenings.  
Whittier invites all the neigh-  
boring cities to join in this de-  
lightful event and to participate  
in the parade of beauty tomorrow  
afternoon.

## Bulletins of News

Hot from the wire up to 3:30 p. m.

### THE WEATHER

Fair tonight and Thursday;  
light northeast wind.

## PROGRESSIVE WIN STATE PRIMARIES— FIRST IN ARIZONA

PHOENIX, Ariz., Oct. 25.—Progres-  
sive democracy won an overwhelming  
victory in the first direct state pri-  
mary. While returns are still incom-  
plete it is certain that George W. F.  
Pett, a Globe, chairman of the con-  
vention, that formed Arizona's pro-  
gressive Constitution, is nominated by  
the Democrats for Governor. His ma-  
jority over Thomas F. Weedon of Flor-  
ence is large.

Eugene S. Ives of Tucson and En-  
gine Brady O'Neill of Phoenix, ultra-  
progressives, are nominated for the  
Senate and Mulford Winsor of Yuma,  
one of the most radical members of  
the convention, is the Democratic  
nominee for Representative.

E. W. Wells of Prescott, machine  
Republican candidate for Governor, is  
apparently nominated over George U.  
Young of Prescott, progressive. There  
was no other Republican contest.

**Vote Extremely Light**  
The total vote cast is not over  
16,000. About 11,000 Democrats and  
5,000 Republicans went to the polls.  
The vote cast in the last general elec-  
tion was 24,000.

## NEW YORK WON GAME IN SCORE OF 4 TO 3

NEW YORK, Oct. 25.—Splendid  
weather conditions prevailed today  
for the fifth game of the world's  
championship baseball series. The  
sky is cloudless and the sun is bright.

Fighting desperately to the last  
minute, New York today snatched  
victory from defeat, and prevented  
the world's champion Athletics from  
again grabbing the title. The score  
was 4 to 3, the final run coming in  
the last half of the tenth inning.

Doyle, the Giants' second baseman,  
was the hitting sensation of the day,  
getting four hits, which were largely  
responsible for New York's victory.

The Athletics took a big lead in  
the third with three runs. In the  
seventh the Giants put one over, and  
in the ninth they came from behind  
with two tallies, and the score was  
tied. One more in the tenth, after  
the Athletics had failed to connect,  
left the Giants one run to the good.

The score by innings:  
R H E  
Phila. 0 0 3 0 0 0 0 0 0 0 3 7 1  
N. York 0 0 0 0 0 0 1 0 2 1 4 9 2  
Batteries—Philadelphia, Coombs  
and Lapp; New York, Marquard and  
Meyers.

## Moving Picture Concern Taking Cowboy Scenes on San Joaquin Ranch

Tragedies and comedians, mixed up  
with cowboy pranks, fancy roping  
and Indian depredations are to take  
place on the San Joaquin ranch dur-  
ing the next ten days. A moving  
picture concern has taken possession  
of the stock range for the purpose  
of producing a number of Western  
scenes. Incidentally the cowboys with  
the moving pictures are going to  
round-up the San Joaquin cattle.

The outfit, which is in charge of C.  
K. French, one of the best field man-  
agers in the moving picture business,  
contains ten cowboys and five women,  
and a complete lay-out for the taking  
of pictures. The outfit is with the  
Pathe Moving Picture company. All  
films are sent to New York for de-  
velopment. French was the first man  
to operate in the West for moving pic-

## MILLIONAIRE IS A VICTIM OF JEALOUSY

Mexican Kills Suitor of Wom-  
an He Loves Who Had  
Reprimanded Him

## SHOOTS HEIRESS OF THE RICH QUESEDAS FAMILY

Manuel Garcia Fled to Hills Af-  
ter Tragedy—Hundreds  
Are in Pursuit

SAN JOSE, Oct. 25.—Manuel Gar-  
cia, the stableman who shot and killed  
Simon Romero, a Monterey mil-  
lionaire, this morning, was captured  
today after a desperate fight in which  
he was mortally wounded.

Garcia died later in the county hos-  
pital.

## COULD NOT BEAR REBUKE FROM WOMAN HE LOVED

SAN JOSE, Oct. 25.—Wild  
with rage because the woman he  
loved reproved him, in the presence  
of a more favored suitor, Manuel  
Garcia, a stableman employed by the  
rich Quesada family here, early today  
shot and killed Simon Romero, a  
Monterey millionaire, and seriously  
wounded Miss Ellen Quesada, in her  
home here. Garcia then took to the  
foothills with an armed posse pursu-  
ing.

Garcia took one of Miss Quesada's  
thoroughbred horses last night and  
returned to the house early today,  
finding Romero and the girl in the  
kitchen over a chocolate pot. His  
intrusion was resented and the girl  
accused him of taking her favorite  
horse. He admitted it and he was  
sent short when Garcia drew a re-  
volver and sent a bullet through Ro-  
mer's heart, then turned his gun on  
the girl and shot her.

Thinking he had fatally wounded  
Miss Quesada, Garcia darted for the  
door, when another occupant of the  
house appeared and grappled with  
him. He prevented Garcia from fir-  
ing another shot at the prostrate  
girl, but the stableman escaped into  
the darkness. Mounting a horse, he  
galloped toward the foothills.

News of the shooting was carried  
to the neighbors, the alarm was soon  
spread. Poses were organized and  
the sheriff's office notified. Ranchers  
and the police authorities joined their  
forces and within half an hour after  
the alarm had been spread, the dis-  
trict was being combed over for the  
stableman. By dawn the pursuers  
numbered several hundred men.

## Story of Garcia's Capture

SAN JOSE, Oct. 25.—Sheriff A. B.  
Langford and three deputies, motor-  
ing north on the Oakland road in  
search of Garcia, when he was seen  
approaching them on the horse he  
had stolen from Miss Quesada after  
the shooting. The party met him  
near the mission at San Jose. Simul-  
taneously the automobile containing  
the officers, and Garcia stopped in the  
road. Just as the sheriff was about  
to address Garcia he whipped out his  
revolver and fired a half dozen shots,  
all missing fire. As the spirited horse  
was on reared and plunged, Garcia  
was given no time to fire again, for  
three officers shot man and horse to  
the ground before the smoke of his  
gun had cleared away. Garcia was  
mortally wounded and sank rapidly,  
later dying in the county hospital.

## WINTER BACK EAST

NERENAH, Wis., Oct. 25.—Snow  
flurries and half an inch of ice on  
water pails are the features of to-  
day's cold wave which came down un-  
expectedly.

—Do you want to save trouble? If  
so come Thursday. We make skirts  
free. Crookshank-Beatty Co.

Orange County Production of  
Poultry and Eggs Annual-  
ly Is Enormous

## PRIZE LIST OUT FOR THE BIG SHOW

Cash and Cups Offered for  
Fine Feathers at Decem-  
ber Exhibition

That Orange County produces an-  
nually nearly 31,500,000 in poultry and  
eggs appears from figures compiled  
by the County Poultry, Pigeon & Pet  
Stock Association. The figures are  
presented in the pamphlet just issued  
by the association for the annual ex-  
hibition to be held in Santa Ana De-  
cember 27 to 30. The pamphlet con-  
tains the premium list and rules for  
the show.

The premium list is the most at-  
tractive ever offered in this county.  
Cash prizes and some very fine cups  
are offered.

The judges for the show are H. W.  
Ginsten of Havilah, R. V. Moore of  
Oakland, G. W. Masterson of Duarte  
and A. G. Goodacre of Compton, four  
men recognized by poultrymen as  
the very best judging talent to be  
had in the state.

All entries will close on December  
23 at 9 o'clock. The headquarters of  
the association is at the Chamber of  
Commerce, Santa Ana. The officers  
are: S. J. Jackson, president; E. L.  
House, vice president; F. L. Bundy,  
secretary and treasurer.

The executive committee: George  
H. Randall, F. A. Holbrook, E. L.  
House, Willard P. Smith, C. D. Lued-  
ke, T. H. Bowen, George Wilcox, J.  
C. Williams, F. L. Bundy, Frank  
Greenleaf, S. J. Jackson, B.  
F. Kuechel, A. E. Hamilton, A. B. Col-  
lins, Prof. B. F. Beswick.

## President's Address

The president in the pamphlet says:  
"The executive committee of the Or-  
ange County Poultry, Pigeon and Pet  
Stock Association have succeeded in  
financing the coming show to their  
full satisfaction. This is a big factor,  
and tends largely to the success of  
any like enterprise. Our association  
and all others interested are to be  
congratulated, as the success of our  
show is now assured.

To encourage one of the greatest  
of industries, we are enabled to offer  
cash premiums. Also offer a hand-  
some special premium in gold in each  
of the poultry, bantam and pigeon  
classes.

I wish to call especial attention of  
expectant exhibitors to the advantage  
of a "Score card show" (such as ours  
will be) over the usual comparison  
show. To the novice who desires to  
learn, and the fancier who wants  
facts, there is no comparison between  
them. In comparison shows, if you  
win first, you simply know that you  
have the best in that show. On the  
other hand, when you enter your birds  
in a score card show and receive your  
card signed by the judge, you have  
a record that is of lasting value to  
you—the judging being done in all  
officially recognized shows by licens-  
ed A. P. A. judges and under the rules  
of the American Standard of Perfec-  
tion, and your card is recognized  
among poultrymen, and when selling  
you get far more for your birds than  
the cost to you; therefore, "encour-  
age score card shows."

Every arrangement for the com-  
fort and convenience of the public  
has been made. A fine aviary pool and  
fountain will add to the artistic ef-  
fect. We will have room for all who  
attend.

## Our Coopage Capacity

Specimens  
Turkeys, Ducks and Geese..... 156  
Poultry of all kinds ..... 1104  
Bantams and Pigeons ..... 400

Total capacity ..... 1660  
A large number of manufacturing  
agents have arranged for space and  
will be on hand to demonstrate their  
wares, such as incubators, brooders  
and poultry supplies of all kinds.  
This will be a great opportunity to  
learn, and we invite all interested to  
attend the show.

The personnel of our judges assures  
every exhibitor a "square deal."  
Read carefully all rules and regula-  
tions.

Begin preparing your birds for the  
show early, so as to have them ready  
in plenty of time. And we especially  
request that all entries be made early,  
so coops may be reserved, for the as-  
sociation has reserved the right to  
close the entries as soon as the ca-  
pacity of coops provided are reserved.

I especially wish to call attention  
of California poultrymen that there is  
no adequate law in our state to pro-  
tect our interests, and we invite  
poultrymen to work through their  
senators and representatives to as-  
sist in securing laws that will better  
protect our interests.

Continued on Page Four

## GEN. SHANG KILLED BY BOMB ESCORT SLAIN

General Revolution Expected in Canton  
Government Loses Nerve--John Chow  
and Sian Fur in Rebel Hands

SHANGHAI, Oct. 25.—General Feng  
Shang, the commander of the Canton  
military garrison, is reported to have  
been killed by a bomb explosion. The  
first reports said the General had es-  
caped, although the members of his  
escort had been killed.

**Gen. Shan's Death Confirmed**  
General Shan's death was later fully  
confirmed, and details of the as-  
sassination reaching here say that  
the bomb was dropped from a house-  
top.

It is now believed that the news of  
General Shan's death will be follow-  
ed by a general revolution in Canton  
that will be participated in by the  
troops there. The governor has tele-  
graphed off to Peking advising

them to grant the rebel demands. He  
ears another massacre.  
John Chow, one of the most strat-  
egic centers of the district, has been  
occupied by the rebels. San Fu, the  
ancient capital of the empire, has al-  
so fallen.

**Government's Nerve Broken**  
These two defeats have complet-  
ely broken the government's nerve,  
and reports from Peking are that the  
members of the imperial court have  
completed their preparations for  
flight, and are ready to flee following  
messages announcing one more de-  
cisive rebel victory. They will seek  
refuge in the imperial palace at Pe-  
king. The government is desperately  
pressed for money, and is unable to  
pay salaries to its attendants.

## FOUR ORIGINAL JURORS HOLD DOWN BOX IN M'NAMARA CASE

LOS ANGELES, Oct. 25.—That a  
juror will be qualified to try James B.  
McNamara merely because he says  
he is willing to law aside any pre-  
viously conceived opinion, was made  
plain by Judge Bordwell today.

The court said he would personally  
take into consideration the jurors  
qualifications and where there was a  
doubt of his ability to divest himself  
of his opinion, he would give the de-  
fense the benefit of the doubt and ex-  
cuse the juror. In making this ruling  
Judge Bordwell sustained a challenge  
interposed by the defense against F.  
J. Mullin. The latter said he be-  
lieved McNamara guilty, but was will-  
ing to lay aside that opinion and give  
him a fair trial.

The morning session was enlivened  
by a protest from the defense against  
the questioning of A. C. Winter by  
Judge Bordwell. The defense attor-  
neys had challenged Winters for

cause, because he said he believed the  
Los Angeles Times had been destroyed  
by dynamite. Attorney Davis ob-  
jected to the questions propounded  
by the court saying he believed them  
to be unintentionally framed for the  
purpose of qualifying jurors. He  
made it very plain he was not criticiz-  
ing the court, but was suggesting that  
possibly certain questions hardly  
proper. Judge Bordwell said the  
questions were designed simply to  
elucidate the frame of mind of the  
juror.

At the end of the morning session,  
the original four jurors passed for  
cause by both sides. George W. Mc-  
Kee, Scaborn B. Manning, Robert  
Bain and F. D. Green, still held the  
four seats at one end of the jury box.  
Just before the noon recess, the de-  
fense challenged Albert Dunlap, a far-  
mer, who admitted believing that un-  
ion labor destroyed the Times build-  
ing.

## CHAIRMAN BUTLER INSTANTLY KILLED

Auto Turned Turtle Near Tif-  
ton, Ga.; Referee Walker  
and Wife Injured

TIFTON, Ga., Oct. 25.—S. M. Butler,  
chairman of the contest board of the  
American Automobile Association  
was instantly killed today when a  
Cunningham car, participating in a  
Glidden tour, turned turtle outside  
Tifton.

P. J. Walker, referee, sustained a  
fractured collarbone, while Mrs. Wal-  
ker's shoulder was dislocated. The in-  
jured were brought here and the tour  
postponed.

## MARVELOUS YIELD OF COTTON ON RICH IMPERIAL LANDS

CALEXICO, Oct. 25.—Some of the  
cotton fields in No. 6 and other parts  
of the valley are proving simply mar-  
velous in the picking. There is evi-  
dence that with one year's experience  
the growers have become more expert  
in the cultivation of this very desir-  
able staple, and an increased yield  
per acre is the result.

Leslie Bennett, who farms a fine  
acreage in No. 6 measured 16 acres by  
survey and is keeping track of the  
cotton. He has finished the first pick-

ing and reports that twenty-four bales  
was the result of the first picking, or  
a bale and a half to the acre. As about  
half of the bolls have opened, there  
will be as much more harvested in  
two more pickings to come, making  
three bales to the acre.

Other fields are returning like mar-  
velous results. Harold Bell Wright, at  
Meloland, picked three-fourths of a  
bale to the acre and you can't tell  
the field has been touched.

Thirty bolls to a plant will make a  
bale to the acre. When every plant in  
a field is loaded, with the experience  
gained each year, there is no reason  
to doubt that at least two bales to  
the acre will be the average yield of  
all land planted to cotton.

## EPISCOPALIANS AT SACRAMENTO

Will Listen to Bishop Coddling  
of Oregon—Meeting for  
Mission Conference

SACRAMENTO, Oct. 25.—The an-  
nual council of the eighth missionary  
department of the Protestant Episco-  
pal church will begin this evening at  
the Diapenbrook theater, when the  
Right Rev. Charles Scadding, bishop  
of Oregon, will deliver an illustrated  
lecture on "The Church in America."  
The conference will continue for five  
days.

## SUNDAY SCHOOLS OF COUNTY HOLDING CONVENTION TODAY

That there are 6000 members of  
Sunday schools in Orange county was  
the statement made this morning by  
Mrs. O. S. Catland at the opening  
session of the two days' convention  
of the Orange County Sunday School  
Association.

Mrs. Catland is secretary of the  
association, and her statement was  
based upon the reports received by  
her from the various Sunday schools  
of the county. That the Sunday  
schools are attended regularly by  
6000 people is argument enough for  
the importance of Sunday school  
work.

The first session of the convention  
began at 9:45 o'clock in the First  
Baptist church. Miss Meme Brock-  
way of Los Angeles, one of the best  
known Sunday school workers of the  
West, conducted the "Model Sunday  
School Session," and an interesting  
half hour it was.

Roll call of the schools showed that  
all but eight were represented in the  
audience. Rev. H. E. Murkett, pas-  
tor of the First Methodist church of  
Santa Ana, spoke on "The Advantage  
of Temperance Meetings to a Sunday  
School." A profitable discussion fol-  
lowed the able presentation of the  
subject.

Lunch was served in the dining  
room of the church.

**Afternoon Session**  
This afternoon J. A. Knapp of Gar-  
den Grove, presided. He is presi-  
dent of the Santa Ana district, and  
an ardent worker. The praise and  
prayer service was led by Rev. J. H.  
Scott, pastor of Immanuel Baptist  
church of Santa Ana, county proba-  
tion officer.

For an hour and a quarter the af-  
ternoon session was taken up in de-  
partment work, adult Bible class,  
home, temperance and teacher train-  
ing.

## FAVOR PLANS FOR HIGH SCHOOL

Conference of M. and M. and  
Chamber of Commerce En-  
dorses Polytechnic

## CONDITIONS SHOW CHANGES NEEDED

Board of Education Presents  
Situation on Which Ac-  
tion Is Asked

The boards of directors of the  
Chamber of Commerce and the Mer-  
chants' & Manufacturers' Association  
last enthusiastically approved the  
proposal of the Board of Education to  
vote bonds in Santa Ana for the erec-  
tion of a polytechnic high school, and  
for other changes in the schools. The  
meeting last night was in the nature  
of a conference, and later each of  
the two civic bodies will pass resolu-  
tions endorsing the plans for the bet-  
terment of the city schools.

Yesterday afternoon the members  
of the school board went to Anaheim  
and visited the polytechnic high  
school now in process of being built  
there.

The conditions are briefly stated as  
follows:

At the First Street or Roosevelt  
school, over 80 pupils have been en-  
rolled in the first grade necessitating  
the principal vacating his office for  
the use of one division of the first  
grade class. Nearly all the other  
grades in that building have been  
so badly crowded as to necessitate  
the transfer of pupils to Central or  
Washington school. The Fifth Street  
school was reopened at the opening  
of the school year to relieve the  
crowded condition of the Third Street  
of McKinley school, and yet the Mc-  
Kinley school is full and before the  
close of this school year every avail-  
able space will be utilized.

At Central or Washington school  
all grades are represented and this  
building is being used as an over-  
flow building to relieve the crowded  
conditions of the other schools. From  
present indications this building will  
be well filled before the close of this  
school year.

At Lincoln school all the rooms are  
well filled and the first and second  
grade rooms having more pupils than  
could well be taught by the by the  
teachers in charge and having a large  
number of Spanish children who can-  
not speak the English language, it  
was deemed best to form another  
class of the Spanish children in these  
two rooms and assign them to another  
teacher. For this purpose the library  
room has been fitted up with seats  
and desks and the interesting experi-  
ment of having the Spanish children  
in a class by themselves, so that they  
may receive more individual atten-  
tion from the teacher and at the same  
time offer no hindrance to the pro-  
gress of white children, is being tried  
out.

In the Jefferson school all grades  
are represented. This is the only  
grammar school building that will not  
be well filled during the present  
school year.

At the two high schools the crowd-  
ed condition is equally apparent. The  
regular high school has an enroll-  
ment of 427 while the assembly room  
or study room has a seating capacity  
of 356. The Commercial high has an  
enrollment of 104, of which 74 are  
freshmen. The freshmen classes of  
both schools number 225. Every avail-  
able space in both buildings is being  
utilized.

It is apparent from the above data  
that some relief for both the gram-  
mar and high schools must be pro-  
vided before the opening of another  
school year.

The Board of Education suggests  
the following solution:  
Use the two present high school  
buildings for the seventh and eighth  
and ninth grades, thus relieving all  
grammar schools of two classes and  
erect a polytechnic high school in  
which the regular high school courses,  
the commercial and industrial sub-  
jects may be pursued by pupils of the  
tenth, eleventh and twelfth years or  
grades.

The Board of Education called at-  
tention to the fact that the following  
cities of Southern California either  
have polytechnical high schools or  
are at present erecting them: Red-  
lands, Riverside, San Bernardino, Po-  
mona, Pasadena, Long Beach, Los  
Angeles, Santa Monica, Ontario, San  
Diego, Anaheim and Fullerton.

**HISTORIC CHURCH TO BE MADE  
FIREPROOF—CLOSED FOR YEAR**  
BOSTON, Oct. 25.—Christ church,  
from the steeple of which were hung  
the lights which sent Paul Revere on  
his ride through Middlesex, is to be  
closed to the public for a year while  
the edifice is being rebuilt and made  
fireproof. Fire has menaced the ol-  
d church for years.

## FINE OUTLOOK FOR SEASON

Whittier Reports Extra Quality and Quantity for Present Walnut Harvest

WHITTIER, Oct. 25.—The walnut season is now on in full swing and the three local associations—the Whittier Walnut Growers, the Los Nietos and Ranchito and the La Habra—all report a splendid outlook for the season.

The quality of the nuts is the finest it has been for years; the quantity has increased over that of last year, and the prices are only a shade lower than last year, when prices were the highest in fifteen years.

It is estimated the brokers will distribute \$3,000,000 for the Southern California product this year, and of this big amount the Whittier district will receive about \$1,500,000.

The Whittier association has shipped to date 27 carloads of ten tons each, and an estimate is put upon the entire output of from 90 to 100 cars.

The association numbers about 180 members, and controls one of the largest districts in the United States. The packing house is located at Los Nietos.

The crop, thus far this season, has been distributed from Omaha to New York through the Eastern and Central states.

The Los Nietos and Rivera association will ship from 80 to 100 carloads this season, and have their crop about one-fourth off.

The packing house is located in the heart of the walnut groves at Rivera, and shipments are made over the Santa Fe Railway.

The La Habra association has sent out a number of cars, and will have between 30 and 50 carloads for the season.

At a recent test for quality the nuts cracked 98 per cent perfect. The or-

ganization is just in its infancy, the groves are young and the outlook for the future of the organization is especially bright.

The walnut industry is one that seems in no way likely to be overcrowded, and there are two important factors that tend to keep the industry in this favorable condition. First, the demand in the United States is three times greater than the supply, and will likely remain so for many years to come. Unlike the lemon or orange trees, the walnut tree is not an early producer.

There is a comparatively small district in this country that is adapted to the growth of walnut groves.

While the walnut producing territory is in a way restricted by climatic conditions, those most intimately interested in the industry state that there is enough undeveloped territory that is known to be favorable to walnut growing to supply the domestic demand, if the land should be improved.

This is one of the subjects which Fred Hazzard, lately appointed by the central organization at Los Angeles, will investigate and lay before the Taft Tariff Commission, as a base upon which to fix the tariff on walnuts. The present tariff is 3 cents per pound.

The American product is put upon the market from a month to six weeks earlier than the foreign crop can be marketed, and comes on in time for the holiday trade. The principal competition comes from France and Italy.

The product from Manchuria and Brazil is hard shell and much smaller than the home grown nut. These nuts do not reach the market until January, and do not come in competition with the superior quality of the American groves.

**REGISTRATION OF WOMEN IN RIVERSIDE IS 2530**  
All the special registration deputies have finally reported to Clerk Pich, and the total number of women voters that they have registered in the six days' campaign reaches the very imposing number of 2530. There are in round numbers 3700 men registered in the city of Riverside, and the proportion of women voters is surprisingly large.

Active work is being done by the women in favor of the several candidates for mayor and other city offices indicate that they will be a real factor in the coming city election.

## GLASS FACTORY A MERE MYTH

Valuable Sand Deposit, However, Is Prepared for Market in Canyon

Orange News: Tucked away in the northeastern corner of Orange County, a few miles above Yorba, and a half mile above Horse Shoe Bend, stands a long rakish building set up on stilts, which has made its appearance this year. Travelers on the Santa Ana canyon road, looking across the valley, have seen it and wondered. If they have asked the natives of that vicinity perhaps they have learned that it is the "glass factory." It resembles, indeed, any one mill that may be seen in mining districts, but up to the present it has rather enjoyed the distinction of being a "mysterious stranger."

The building is not a glass factory. It is a grader which separates into its commercial classification, the output of one of the finest sand deposits in the world. Here five grades of sand, some of it as fine as flour when it comes out of the ground, are prepared, sacked and shipped to the glass factories and cement plants all over Southern California.

The building was put up early in the spring by the American Glass Sand Company, with offices in Los Angeles, and work was started in April. The sacks, graded and stacked up for shipment, bear the label of the company, with the location of the deposit, Horse Shoe Bend, California. A side track of the Santa Fe gives the loading facilities. From twenty to twenty-five men are employed.

The sand deposit itself is worthy of investigation. A huge bluff, located at the very top of the curve of the railroad at Horse Shoe Bend appears to be composed almost entirely of pure sand after a covering of dirt has been removed. It seems strange that where river sand lies free for the gathering, a few hundred yards away that manufacturers would go to the trouble of taking it out of a hill, but the difference, of course, lies in the sand. That of the river is not free from impurities and other materials while the deposit in the hill is more purely silicious. It is said that the demand for this sand is active, and that the production does not keep pace with the orders. This is evident from the fact that a larger blower is now being installed as an improvement of the screening method of grading the sand.

The methods of mining the sand present a difficult problem. It is impossible to tunnel without making careful provision for timbering, as the sand caves so that a tunnel will not stand unsupported. At present a force of men is "stripping" the side of the hill, that is, removing the dirt and laying the sand deposits bare, which is in itself a difficult and expensive task.

That the grades of sand found here are valuable from a commercial standpoint is evident from the number of men employed, the machinery used, and the scale of the mining operations. It is probable, eventually, that a rear glass factory will be established near there and the expense of transportation thus overcome.

## GRAY HAIR WILL MAKE YOU LOOK OLD

Use Wyeth's Sage and Sulphur and Your Gray Hair Will Quickly Vanish.

Gray hair is a mark of age, and nothing that can be said as to its beauty will offset the disadvantages of this mark of age set upon your brow.

Wyeth's Sage and Sulphur Hair Remedy darkens the hair and restores it to its youthful beauty. Our grandmothers and their grandmothers before them used sage and sulphur for darkening their hair. Nothing has ever been found more effective for this purpose than these two time-honored remedies, but Wyeth, a modern chemist, has combined the two with other ingredients which makes a delightful dressing for the hair, and which not only removes every trace of dandruff but promotes the growth of the hair. It also stops the hair from falling out and makes it beautiful.

All druggists are authorized to refund the money if it fails to do exactly as represented.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists. Special Agent, Rowley Drug Co.

**Embryonic Ones**  
They had been at school together, recounts Answers. They had fought both shoulder to shoulder and face to face. Now, after the passing of years, they met again.

"How's the world treated you?" asked the long, thin one.

"Like a lord," said the short, fat one. "Got my own business, wife and three youngsters, two thousand a year. And how are you?"

"How?" replied the thin man. "Oh, anyhow!"

"Dear me! Sorry to hear it. Let me think. You went on the stage, didn't you?"

"Yes. But I had to give it up."

"Why was that?" asked the city man.

"Oh, I thought it best," said the other. "I had a few hints that I wasn't quite suited to the profession."

"Oh, I see!" nodded his friend, knowingly. "The 'little birds' told you, eh?"

"Well, not exactly," answered the ex-actor, with a painful smile. "But they would have been birds—if they had been allowed to hatch."

## Real Estate Transfers

(From the Records of the Orange County Title Company).

Deeds

October 23rd, 1911.

# WILL MAKE USE OF PROPOSED SYSTEM

County Superintendent to Use Bulletins for Sending Out Information

County Superintendent of Schools R. P. Mitchell expects to make use of the proposed new system of bulletins. At the last meeting of the school superintendents of the state it was decided that this state would have no official journal through which announcements from the office of the state superintendent of schools would be made. It was thought that the state superintendent could and should issue bulletins to be distributed over the state among superintendents and teachers.

A short time ago State Superintendent Hyatt announced that he had begun the issuance of bulletins, and it was suggested that each county superintendent should have printed up on the blank pages of the bulletin such matters of county importance as should go there.

"As yet I have received no supply of the bulletins," said County Superintendent Mitchell. "I received a copy of Bulletin No. 1, and wrote to the state office to get 300 copies that I might distribute them among the teachers."

I shall use the bulletins for sending out information. Hitherto this office has used circular letters when necessity arose. I expect also to send these bulletins to the clerks of the various boards of school trustees. It offers a very convenient manner of handing down suggestions and of keeping in close touch with what is going among educators of the state."

## 1000 ACRES IN TOMATOES

PLACENTIA, Oct. 25.—The tomato harvest is now in full swing, and the outlook is for a better production than last year. The total acreage devoted to the crop this year is 1000 acres. The yield last year averaged five tons to the acre.

Packing houses are paying growers \$25 per ton, which is nearly double the price obtained last season at this time. Ninety-five per cent of the crop has been taken by the California Vegetable Union. The season will last till Christmas, barring frosts. Most of the crop goes to Eastern markets, and is picked when half ripe. Women employed in packing make from \$15 to \$18 a week. Tomatoes are wrapped like oranges, and run about twenty to the basket, four baskets to the crate and 750 crates to the car. A carload would contain about 60,000 tomatoes. The culls are sold to canneries for \$7.50.

Many orange growers are growing tomatoes between the rows of trees and netting a nice profit. The vines when plowed under make good fertilizer.

## Brackett's SYSTEM BUILDER for BLOOD—STOMACH—LIVER AND KIDNEYS

Will fill your veins with rich, red, vitalizing blood—invigorate your heart—improve your digestion—strengthen your nerves—regulate your liver and kidneys—eliminate all impurities—and put all your organs in natural balance and harmony, thereby insuring the body against disease. ## SCHOOL BOOK MAN FORFEITED RIGHTS

SACRAMENTO, Oct. 25.—The right of School Supply Dealer E. C. Stewart of Stockton to buy text books from the state has been declared forfeit by the superintendent of public instruction at Sacramento.

Complaint came from Mono county that Stewart was demanding a higher price for books than that fixed by law. In the remote mountain counties where there are few local dealers the pupils must often order by mail. Investigation showed that Stewart has been active in soliciting mail orders in such localities, charging the full postpaid price to pupils, with an extra postage added for good measure. By this means he was charging the pupils postage twice, to the increase of his profits.

But this is a clear violation of the law, which is intended to make sure that all children, wherever they may live, shall get their text books at a low and uniform price fixed by law. Further than this, it is a violation of the affidavit sworn to by every dealer before he can purchase books from the state. The law prescribes that violation of this affidavit shall result in the revocation of the dealer's right to buy books from the state. This is the action taken by Superintendent Hyatt in Stewart's case. Stewart is well known as a large dealer in school supplies who sends agents among the schools of Central and Northern California.

**AUTO DRIVER IS BADLY SCALDED**

Orange News: A motor party from Whittier, stopping near the Orange County Park, yesterday afternoon, had a slight accident, which resulted in rather painful injuries to the young man who was driving. The machine had been stopped to fill the radiator with water, the engines having become heated. As soon as the radiator cap was loosened it was blown off and hot water dashed in the man's face, severely scalding him.

With his head bound up, the driver brought his car to Orange, disregarding all speed laws and sought the assistance of Dr. Royer. With his face dressed and neatly rewrapped, with openings for the eyes, that he might see to drive the remaining distance home, the young man asked if a hole might be cut in the bandage at his mouth. The doctor told him that it would be better if he breathed through his nose for the rest of his journey, and allowed the bandage to remain as it was, as the burns seemed unusually severe, but the patient insisted on having the hole at the mouth, as the party, so he said, intended to lunch at Olive, so the doctor complied.

Thus accommodated, the young man repaired to the nearest drug store, purchased a box of cigarettes and rolled out of town, with one firmly jammed through the hole in his bandage.

A Hoosier Kitchen Cabinet will save its cost in a very short time. It is not only an economizer of time but saves your foodstuffs. It is a pantry, cupboard and work table combined. Horton-Spurgeon Furniture Co.

## PUT OVER TO NOVEMBER 1

Board Did Not Call Election on Saloons in Fifth District Yesterday

Petitioners Have Chance to Withdraw—Call for Bids for Auto Service

In order to give the petitioners an opportunity to withdraw the petition asking for an election on the saloon question in the Fifth supervisory district outside of Santa Ana and Newport Beach, the Board of Supervisors yesterday afternoon continued the matter of calling an election until November 1.

It seems that some of those who are back of the petition are anxious to have it withdrawn, believing that there is no possible chance of carrying the district wet. There are some others who want to let it go forward, hoping that by some chance the election may go their way.

The Board of Supervisors naturally wish to save the county the expense of an election if the petitioners want to withdraw their petition. If the petition is not withdrawn there will be no alternative for the board. The election must be called, and if the petition is not withdrawn before November 1 at 10 o'clock, the supervisors will proceed immediately to officially call the election. After it is called, the petition cannot be withdrawn.

**Per Mile Bids**  
The desirability of having an automobile at the disposal of the offices of the district attorney and sheriff for county business having been presented to the various supervisors, it was concluded to advertise for bids for automobile service. Bids are to be opened on November 8 at 10 o'clock. The basis of the bids will be for a per mile service, automobile and chauffeur to be furnished by the bidder. In that way the county will not own the automobile.

**To Sell Property**  
Notice was ordered given that the Board of Supervisors will sell at auction old lumber from the South Glassell street bridge of the Orange road district. The time of auction was set for 10 o'clock, November 4.

It was also decided to advertise the sale by auction of the D. C. Cook property at Orange, at 11 o'clock, November 8. The sale will be at the courthouse. This property was deeded to the county by Cook as compensation to the county for caring for him for a number of years before his death.

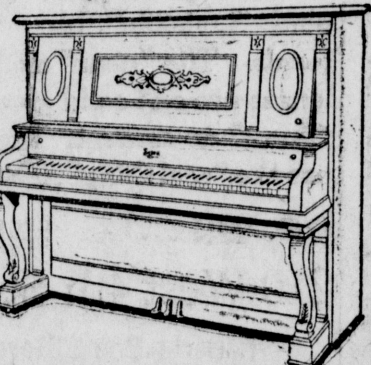

**Are Re-Appointed**  
Attorneys Richard Melrose, H. C. Head and R. Y. Williams were re-appointed as County Law Library trustees.

The petition of B. F. Dierker for a permit to lay a pipeline across Batavia avenue at Orange was granted.

It was ordered that tickets to Chihuahua, Mexico, be purchased for Joseph and Refugio Estargo, children of a Mexican woman murdered on East Third street several weeks ago. It was shown that relatives will care for the children after their arrival at Chihuahua.

Lydia Robinson was placed on the

# NEW SILKS FOR FALL WEAR

Exclusive Designs in Bordered Silks for Waists and Dresses

EXCLUSIVE WAIST PATTERNS,  
3½ YARDS OF 27 INCH MATERIAL... **\$5.25**

These new bordered silks come straight from New York. They are the handsomest designs yet produced for Fall wear. The material is a soft, Liberty Satin, in solid colors of browns, greens, Copenhagen and navy blues, ivory, and black, with wide borders, some self figured in monotonous, some in two toned effects. And we have some fresh New York ideas in the way of water color sketches to show you how to make them up with the best effect. There are no two alike, all are exclusive designs.

HANDSOME DRESS PATTERNS  
6 YARDS OF 42 INCH MATERIAL... **\$12.00**

In bordered silks for dress patterns, we show four handsome designs. This cloth comes 42 inches wide in a little heavier weight of Liberty Satin and a new twilled satin. The feature of these patterns are the new Turkish borders, a series of five bands graduated in width. The effect is strikingly handsome. We show a rich chocolate with gray border, a dark green with Persian border, a black with blue Turkish border, and a Copenhagen blue with a gray Turkish border. You will see these silks in our Fourth street window.

## CHIC MODELS IN LONG COATS JUST ARRIVED

Coats With Big Collars Priced at \$12.50, \$15.00 and \$17.50

By express we received twelve of the new, big collared coats. They are made of the best Fall materials, Scotch Tweeds, rough Cheviots and mixtures. The collars are made of self material or plain to match, and with pockets and cuffs of the same. Most of them are buttoned at the side with large ornamental buttons. And the prices are so reasonable, only \$12.50, \$15.00 and \$17.50 for the stylish, new coats.

## California: It's History and Romance

By JOHN S. MCGROARTY

California's Most Loved Writer, Word Painter, Historian and Poet

### The Book

was written to meet a special demand. It is the only one-volume history ever published which gives the whole story of California. Thoroughly indexed, reliable, righting many wrongs, condensed into ten chapters, more interesting than a novel and is, all in all, the most wonderful, fascinating, interesting and valuable work ever published in California. Splendidly bound, size 9½x6¼, about 400 pages, printed in good readable type and beautifully illustrated.

### What It Means to California

The author has made this history book that will stand for all time to come as a "Mastery Literary Production." It will be purchased by thousands of tourists and eastern people who are contemplating a western tour, as a guide. It will prove one of the greatest advertisements for California ever published and is just the book for you to send to any relative or friend whom you are anxious to have come to California, because it will make them want to come. California's story told as only John S. McGroarty can tell it.

## What Has Already Been Done

\$10,000.00 worth of these histories have already been sold to private individuals in advance of its publication. Many leading lawyers, including the supreme court, bankers, doctors, capitalists, manufacturers and real estate men of the state are already patrons of the work. Its greatest endorsement is its author. Some of the leading historical critics have been secured to review the work in MS form and they pronounce it the best that has ever been written on California, and in unsurpassable style and form. 25,000 copies will be sold in California alone for Christmas presents. It will be the best present in the "book world" for members of your family, especially for students, and for eastern friends. The rush on the book is now on, and we advise that you place your order at once with your bookdealer for future delivery, as you may appoint to insure its delivery. The Grafton Publishing Company, publishers of the West Coast Magazine, are the publishers of "California: Its History and Romance." In order that it may help the publishers in the rush that is now on and assure you the copies wished, the following coupon has been made to carry a cash value if used prior to October 15, 1911. The publishers urge the use of this coupon as it will greatly aid in the publishing of the work. It is absolutely the same as cash, as the retail price is \$3.50 per copy.

### CONTENTS

- 1.—The Land of Heart's Desire.
- 2.—When California Began.
- 3.—The Story of the Missions.
- 4.—Monterey the First Capital.
- 5.—The Spanish Era.
- 6.—The Mexican Era.
- 7.—The Bear Flag Republic.
- 8.—The Argonauts.
- 9.—The American Conquest.
- 10.—The Five Miracles.
- (a) Building of the Missions.
- (b) The Central Pacific Railroad.
- (c) The Reclamation of the Deserts.
- (d) Rebuilding of San Francisco.
- (e) The Owens River Aqueduct.

### COUPON COUPON COUPON

You pay no money until the day you appoint to take the history. You only file your name and order for future delivery, which is to be not later than December 1st, 1911.

.....please file my order for .....copies of "California: Its History and Romance" which I agree to call for on ..... 1911, and pay a balance of \$3.00 on each copy ordered.

( \$ 15 ) Name ..... Address .....

### DIRE DISTRESS

It Is Near at Hand to Hundreds of Santa Ana Readers

—Don't neglect an aching back. Backache is the kidneys' cry for help.

Neglect hurrying to their aid Means that urinary troubles follow quickly.

Dire distress, Bright's disease. W. N. Nelson, 902 East Fifth street, Santa Ana, Cal., says: "Six or seven years ago, while living in Pennsylvania, I used Doan's Kidney Pills and was relieved of pains in my back from which I had suffered. Occasionally my back was so painful that I could scarcely turn over in bed. In addition to this, I also had rheumatic pains. The contents of a few boxes of Doan's Kidney Pills, procured at Dean's Drug Store, removed my aches and pains and I have had no cause for complaint since."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

—We have a splendid buy in a four-passenger, twenty-horse-power automobile. Wm. F. Lutz Co.

James Willis Rice desires to announce that he has resumed his class. Those desiring violin instruction may communicate with Mr. Rice at Tustin, or phone Red 2024.

## GRIFFITHS GOES INTO BANKRUPTCY

Yesterday afternoon a petition in bankruptcy was filed in the federal clerk's office in Los Angeles by Charles E. Griffiths, formerly a rancher on the San Joaquin ranch. The liabilities listed in the petition total \$3300, with Estes of Ventura county, the Newmark Grain Co. and a man named Wolf as creditors. There are no assets that can be applied to the payment of the debts. Langley & Thomas are attorneys for the petitioner.

### Tennyson's Bird Sounds

Perhaps the best word for the cry of the cricket is that of Tennyson. "Not a cricket chirp," he writes in "In Memoriam." But Tennyson was always curiously exact in his vocal rendering of the songs of birds. What could be truer to sound than "the moan of doves in immemorial elms"? Then, too, the linnet, the woodpecker "laughs" and "mooches," the lark and the plover "whistle," the jay "scritch-scratches," the parrot "screams," the peacock "squalls," the blackbird "warbles," while the ocean fowl "shriek" and the eagle "yelps."—London Graphic.

### FOREST TO PAY CITY'S TAXES

San Diego, in the extreme southwestern of Uncle Sam's dominions, is the first of American cities to inaugurate a great forestry enterprise, in the expectation of speedily lessening the burden of taxation borne by its citizens, and, possibly, of ultimately relieving them of all tax levies for the support of the city government.

As a heritage from the days when San Diego was a Mexican pueblo, the city owns 7000 acres of land, which, up to the present time, has been unproductive.

On account of the rapid growth for which the various species of eucalyptus are remarkable, and the great value of the timber as a substitute for oak, hickory, and the other common hardwoods, these are the trees that are being most largely planted. Forty thousand seedlings of the "sugar gum"—eucalyptus corymbosa—were purchased from nurserymen and set out in the spring of the present year. The Federal Bureau of Forestry, in official publications, discourages the expectation of extraordinary profits from eucalyptus culture; but on the other hand, the pioneers in eucalyptus culture, who have been growing timber for profit for a quarter of a century or longer, exhibit statements of their business that seem of more practical value than any amount of theorizing. One conservative statement is given by the owner of a large eucalyptus grove planted more than twenty-five years ago. He says that he harvests annually timber to the value of \$350 from each acre, and that the timber remaining becomes of greater value each year, the natural growth of what is left more than compensating for what is cut. Groves of this kind will continue productive forever, with no diminution of the annual harvest, young trees springing up from the old stumps, or being replanted, so that the stand of timber is kept as heavy as the land is capable of supporting to the best advantage.

Let us grant the contention—although advocates of eucalyptus culture will never do so—that San Diego can never approach the record referred to. Suppose that the city forest, when twenty-five years old, can do only half as well, and can yield only \$175 worth of timber to the acre. That means that the annual harvest from its 7000 acres of pueblo lands—if all is devoted to forestry—will be \$1,225,000. Allowing for all expenses, there will be left a profit that should go far toward reducing the burden of taxation now imposed upon the people of San Diego.—Technical World Magazine.

### NO PLACE LIKE HOME

It is a happy circumstance that most persons like best the surroundings amid which fortune has placed them. It is true that there are many who appear to think that some place other than the one where they are domiciled would be more to their liking, but when put to the test these complainers are usually glad to live on and in the old way rather than to experiment with a new place of abode. No one realizes this more clearly than do the real estate agents. It frequently happens that a family has, for one reason or another, reached the conclusion that it would be well to dispose of the old home and remove to new surroundings. The agent is asked to find a purchaser which he does in due season. Then it is that the family, with the prospect of quitting the old familiar scenes confronting it is suddenly aroused to a clearer appreciation of the old home as a place of residence. The prospective purchaser is dismissed and no others are invited.

There is a fine condensation of much human experience set forth in the line: "Blessings brighten as they take their flight." Perhaps no other couplet in the whole realm of poetry voices a more universal truth than do the lines:

"Mid pleasures and palaces though we may roam,  
Be it ever so humble, there's no place like home."

"Our house" is the very center of the world. We think of other parts of the earth as being a long way from us; not of our house being a long way from other parts of the earth. Perhaps there was an element of truth in the words of the little girl who said to her playmate: "Why don't you come to see me more often? You know my house is much nearer your house than your house is to my house."

The residents of the island of Nantucket when asked for information regarding the location of their island do

not say that it is 30 miles off the mainland of Massachusetts. On the contrary they respond that Massachusetts is 30 miles off the island. Their point of view is that which is common to all the world. The Eskimo in his snow-walled igloo of the frozen north, the Indian in his tepee of the plains, the Swiss dwelling amid his alpine crags, the Arab surrounded by the shining sands of the desert, each is solaced by the thought that he dwells in the most desirable section of the whole wide world. So too, the residents of a neighborhood each finds some line of reasoning that makes it apparent that in some way, his house, his home, his family, his friends, his ability to do some one thing or another, gives him reason for thinking himself blest above his neighbors. It is this trait of human nature that makes rich and beautiful a world that might otherwise seem bleak and undesirable. Our own belongs to us and in that thought dwells happiness.—Christian Science Monitor.

### "POLLY-HIGH" A GREAT ATTRACTION

Long Beach has a magnificent Polytechnic High School; only recently completed, and began its work at the opening of the present school year. Very thrifly and properly this splendid school is regarded by Long Beach as one of its principal advantages and attractions for home-seekers. The Press says the new Poly-High "is starting off its career in a way to make a great name for itself. The work is being well organized. The fact that so many students have re-entered the high school for a post-graduate course is significant. In order to impress outsiders with the excellence of the school, its work must be well recognized as superior here at home. In this way patrons of the school may do some very effective promotion work. If Long Beach stands loyally by its High School, patronizes it and praises it the effect is bound to be favorable in making the right kind of impression upon strangers who may be contemplating coming here for school advantages."

### PERTINENT PARAGRAPHS

Christian Science Monitor

Nobody seems to have thought of mentioning it, and the idea may fall flat now, but it looks as though something should be done toward popularizing the umpire while the enthusiasm is at its height. The umpire has done as much as anybody toward giving baseball its present high standing. There appears to be one point, at least, upon which all parties and factions are now agreed, though the progressive Republicans are the latest to come in; namely, that what the country is suffering from mostly is uncertainty, and that something should be done to put an end to it.

A Kansas professor is said to favor a legislative enactment in that state compelling all men to wear whiskers. He has evidently forgotten what the planting of wind-breaks has cost Kansas to date.

Perhaps it is just as well, for the sake of rational discussion, that the economic side of the sugar question is now being regarded from the point of view of beet rather than throbs.

As a figure of speech, "the roar of business breakers" is not half bad, nor are conditions half as bad as it would imply.

The reclamation of the swamp lands of this country would provide, it is estimated, for the support of 4,000,000 people. But this is a small matter in comparison with what the reclamation of the arid land of the country is capable of doing. Probably swamps and deserts both will have practically disappeared a hundred years from now.

So far, trains continue to run regularly between New York and Philadelphia and all the channels of business and social intercourse remain open. Evidently the baseball series has not reached its crisis.

It has been decided finally by a well-known American magazine that it is possible to make \$1,000,000 honestly. However, many find it impossible to do so.

One way to raise the standard of applicants for admission to West Point would be to remove whatever barriers stand between the capable boy and admission.

China has been refused a loan because the nation is unsettled; the refusal of loans to Italy and Turkey until they get settled would be still more helpful.

### HAVE YOU PILES?

Then HEM-ROID is What You Want—A Guaranteed Internal Remedy

There is a physician's remedy, in sugar-coated tablets taken inwardly, that cures all forms of piles and avoids painful operations, as well as the common odious treatments. It attacks the very cause—bad circulation. This remedy is Dr. Leonard's HEM-ROID sold by Rowley Drug Co., Santa Ana, Cal., and all druggists. \$1 for 24 days' medicine, and satisfaction guaranteed. Dr. Leonard, 60, Station B, Buffalo, N. Y., Prop. Write for booklet.

## Why Saloons Should Be Kept Out of the Fifth Supervisorial District

HELL'S JUBILEE

(By Mrs. M. Chandler Fisher)

Standing before a dilapidated dwelling, crying bitterly, a little boy was asked what the trouble was. He replied, "Father's at the saloon, and mother's lying in bed drunk, baby tumbled out of the crib, and I don't care one darn."

Picture, if you can, the battle-field with its windrows of slain; draw in art's most vivid and effective colors, the gallant vessel sinking in the hungry surges, or crushed by the jagged teeth of pitiless rocks, while the breakers seem to laugh and hiss at the death shrieks; let gaunt-fingered poverty draw for us the most ghastly of her memories; let pestilence ransack the charnel house for her most loathsome trophy, and their united efforts would fall far short of the picture of "father at the saloon, and mother lying in bed drunk." If there is joy in heaven over one sinner that repenteth, truly there must be jubilee in hell over a sight like this!

No community has a right to self-complacency while at our very doors intemperance is seeking to write in scenes like these the alphabet of dissolution. Orange county has battled fiercely that no conscious wrong might be allowed to root in her soil; that the homes of her ten thousand beautiful, bright-eyed, rosy-cheeked children be not surrounded with a tainted moral atmosphere. Let her demand now, by her ballot, that her sons and daughters be temperate. The very fact of her exaltation is evidence of the possibility of her degradation. The citizens of Pompeii and Herculapum were very proud of Vesuvius and cultivated their vines and olives near the very crater. There came a day when, gathering its internal energies, it launched forth a burning sea of lava.

There is a force at work to start a traffic in our beautiful county injurious to the best interests of its citizens. The rum-seller wants our children; he can easily give security that he will keep them after he gets them, too. There is Poverty and Beggary and Filth and Disease, and hosts of names as well known as theirs, that will endorse his papers. There's plenty of money in the whiskey ring. We arraign intemperance as the cause of human slavery, the direst curse with which mankind and womankind are assailed. We appeal to the voters in the Fifth supervisorial district of Orange county. Shall we allow a beverage sold among us which demands a mental, moral and physical tax? Social polity, and even civilization itself may depend on the issue.

Let it be war to the knife with everything militating against true manhood. Let Orange county safeguard her children; let there be between them and the rumseller a great gulf fixed, a gulf that love cannot fathom and hate cannot bridge; let it be as im-passable as the gates of Eden, defended by the flaming sword of God's seraphim.

### WHAT OTHER ORANGE COUNTY PAPERS ARE SAYING EDITORIALY

Anaheim Plain Dealer: The death of Judge Harlan of the Supreme Court of the United States last Saturday, makes the fifth death from this exalted body since President Taft took office as President. Harlan was a distinguished jurist, and his sudden taking off came as a shock to the people of the entire country. Had he lived until June next, he would have served his country on the Supreme bench longer than any one who had preceded him. Peace to his ashes. President Taft can be relied upon to fill his place with a man of equal courage, dignity, ability and learning.

—You may have read something elsewhere in this paper about the "Flanders '20," go see it. Wm. F. Lutz Co.

Why bake when you can get bread made of A-1 Flour at the Home Bakery, 413 West Fourth street.

Most Every One Was There  
You missed it if you were not with them, surely you had an invitation; well, don't be down-hearted for the same great event will be given to-night for the last time, so you still have the opportunity of enjoyment that your friends are telling you of, and many of them are going again to-night. Oh, how they laughed, and some are still laughing. Well, they just can't help it. "A Day at College" is the cause of it all, and The Bell was crowded and everyone happy. Thursday night and for the remainder of the week the Starland Musical Comedy Company will present the laughable Spanish comedy Paquita, in one act and three scenes, with all new numbers, music, songs, dances and costumes, with wonderful electrical effects. Owing to the big crowds, Manager Roberts has decided to put on two shows for Saturday night. First show at 7:30 prompt, and the second at 9 o'clock.

The fireless cooker that bakes, roasts or boils and gives all foods a better taste and richer flavor, ought to commend itself to every housewife. Add to this, the fact that it does away with fuel bills, disagreeable odors of cooking vegetables and standing over a hot stove, and you have a few of the many advantages of our fireless cooker. Horton-Spurgeon Furniture Co.

## A MILLION AND HALF EACH YEAR

(Continued from page one)

protect our interests.

Great Production  
On the write-up of Orange County the pamphlet says:

But from the poultryman's point of view, the half has not been told, with all the conditions enumerated. Where in all this big world can such ideal conditions be found for raising poultry as in Orange County? Those who have been engaged in the business for ten, twenty, yes, forty years, say, and truthfully so, nowhere. Our location, climatic conditions and marketing facilities and the ever-increasing demand for the product of the poultry ranch tends to assist our association to realize their ambition to make Orange County that which it is entitled to be, the center of the poultry industry of Southern California.

Comparatively speaking, the industry in our county is only in its infancy, yet in the year 1910 there was produced in the county, as follows:

Anaheim and Tributary Territory—

Poultry	20,000	\$15,000.00

### FOR MRS. SKILES

A. J. Smileys Were Hosts at Dinner Party for Friend Here on a Visit

Mr. and Mrs. A. J. Smiley, on North Broadway, entertained at a pleasant dinner Tuesday evening in honor of Mrs. R. H. Skiles, who is visiting in Santa Ana. Later others came in and spent the evening, the time being enjoyably spent in conversation and games.

The dinner guests, besides the honoree and the host and hostess, were Messrs. and Mesdames J. A. Stanley, D. P. McBratney, Geo. F. Thacker, W. R. Curry, S. S. Finley, A. G. Finley, Roy Beall.

### Literature Section

This section of the Ebell Club will meet tomorrow afternoon at the home of Mrs. G. W. Wilcox, 2409 North Main street.

### Methodist "At Home"

The ladies of the First Methodist church will hold one of their pleasant "at homes" on Friday afternoon at the home of Mrs. P. A. Robinson, 219 East Washington avenue. Strangers are especially invited to be present and join in the enjoyable event.

### Guild Bazaar

The Ladies' Guild of the Church of the Messiah is planning a bazaar for the first week in December. The ladies will serve a hot dinner and will have on sale all kinds of dainty fancy articles which they have been for some time preparing.

The affair will be in the nature also of a "house warming" in the new Guild Hall, now being added to the church.

### Return the Plates

Elsewhere in the Register will be found a notice from the Woman's League announcing where plates and pie tins on which cakes and pies were taken from the recent baking contest at the Rossmore, may be returned, and where owners may find them.

### Rebekah Initiation

On next Saturday night there will be an initiation of officers in Sycamore Rebekah lodge, and a very cordial invitation has been issued to all Rebekahs to be present. The initiation will take place at I.O.O.F. Hall. The ladies are requested to take flowers.

More people are appreciating the advantages of our kindergarten department this year. It is indeed the ideal method of first musical training for the little folks.

Our violin department is flourishing this season too, under the very capable direction of Miss Lalla Fagge.

We can always accommodate more students and shall be glad to welcome you.

Send for one of our catalogues.

### TWENTY-FIRST BIRTHDAY

Baracas and Philatheas Held Celebration Last Night of Union's Natal Day

Last evening at the First Presbyterian church, was celebrated the twenty-first birthday of the Baraca and Philatheas Union. The first part of the evening was given to a devotional hour with the following program:

Opening Song Service, led by Ed. Warner.

Convention Song.

Prayer—Rev. J. A. Stevenson.

Five Minute Scripture Quotation—Glen Morrow.

Volunteer responses with scripture verses beginning with B there A. and R., etc., and P.H.I., etc.

"From Cradle to Maturity"—Arthur Anderson.

"The Man Who Wants a Million"—Ben Reiland.

"The Baraca-Philatheas Temple"—Miss Cora Seifer.

Collection—Eva Martin, Hazel Rowley, Pearl Nelson, Alice Wasser.

"Personal Work and Secret Service"—Rev. J. A. Stevenson.

Benediction.

The collection taken goes to the temple in Syracuse, N. Y.

After the devotional hour, there was progressive conversation, concluded with a musical program, which follows:

Selection—South Methodist Quartet.

Reading—Miss Virgil Potts.

Instrumental Duets—Dudley Page and Miss Houghton.

Solo—Albert Harris.

Reading—Roy Elliott.

Ebell to Hear Hiawatha

Melodrama, in the original meaning of the term, signified a dramatic rendition of a poem or play to a musical accompaniment. This is the nature of the entertainment to be enjoyed by the Ebell Club Saturday afternoon when the melodrama of Hiawatha is to be given by Miss Rose Wilson, reader, and Mr. Allan Revill, pianist.

Genuine Indian melodies have been used as themes in the musical setting of this, the greatest poem of Indian life. Miss Wilson is here for the winter from Central College, Pella, Iowa, where she has been director of expression for the past four years. She has had much experience as a dramatic reader, appearing before many audiences and traveling as reader with college glee clubs.

Mr. Revill's work is very well and favorably known in the musical circles of Santa Ana.

Made Children Happy

Mrs. W. W. Cross was the gracious hostess yesterday afternoon to the members of the House of Economics Section of the Ebell Club, assisted by her committee, Madame Randall, Mrs. J. H. Walker and Mrs. Hoyt Hall.

Easy chairs and hammocks were disposed comfortably in the big front yard of the Crosier home and in the cheerful spot under the shade trees, after a brief business session, was held a most successful meeting.

Mrs. D. Dobson, the teacher, gave an admirable talk on hygienic cooking, dwelling particularly on hygienic cookery for children, the meeting of yesterday having been set apart especially for meeting and entertaining Mrs. Jones, matron of the Day Nursery, and her small charges.

Mrs. Getty, at 3 o'clock, sent her automobile for the children, and when they had arrived, their afternoon luncheon was served on small tables under the trees. Place cards for the small folk were tiny Dutch dolls.

Later the children were given an automobile ride in the Getty auto and then taken home after a jolly outing.

The ladies of the committee demonstrated the proper, as well as improper, methods of cooking breakfast foods. That served to the Day Nursery children had been cooked fifteen hours. The ladies of the section were given samples in Saki cups of the "well done" and of some that had been cooked for thirty minutes, according to directions on the package of breakfast food.

Custards, and fancy cakes made by Madame Randall, and a variety of fruits, completed the demonstration luncheon for the members of the section.

Look well to your boys and girls, parents, and see that they are not handicapped for life, or allowed to lapse morally, on account of eye-strain.

## Vandermast & Son

110 East Fourth St. Santa Ana, Cal.

## MEN'S MENTOR Union Suits

\$1.25

\$1.75

The best fitting—best value to be obtained.

Wool Union Suits \$3.

A complete stock now.

An article was read by Mrs. Hoyt Hall on school lunches, and a discussion on playgrounds followed. Dr. Willard Waffle gave an admirable talk on hygienic foods. Dr. Waffle also answered graciously the many question propounded on the subject of food values.

A pleasant surprise of the afternoon was the presentation to each member of a sanitary drinking cup by Mrs. Theo. Lacy, who brought them with her on her recent return from the East.

Dainty refreshments of marshmallows, pudding and sponge cake were served to the little guests from the Day Nursery during their visit.

### Now Study Club

The Philharmonic Society has changed its vocation and is now a study club, that will incidentally give concerts during the season.

At its meeting last night the society decided to limit its membership to forty. New members will be received during the next three weeks, when the list will be closed until after the first concert.

### Bacon-Talbott

A very pretty home wedding was that of George M. Bacon of Seattle and Miss Zitella Talbott of this city at twelve o'clock today. The Episcopal service was said at the home on Cypress avenue in the presence of a few relatives, by Rev. J. A. Stevenson, pastor of the First Presbyterian church. After the expressing of good wishes and congratulations the company partook of a delicious two-course luncheon.

A table in the living room displaying a beautiful assortment of silver, china, cut glass, linen and gold pieces, bespoke in a measure the popularity of the bride in her circle of friends and relatives.

Before departing Mrs. Bacon changed her dainty white embroidery wedding dress for a traveling suit of brown.

The bride has for many years been a resident of Santa Ana and leaves behind her a host of friends who are wishing her every happiness in her new home. Mr. Bacon, a stranger to Santa Ana people, is a prosperous business man of Seattle and left for that city this afternoon with his bride. The guests at the marriage were:

Messrs. and Mesdames B. M. Talbott, L. L. Smith, J. G. Talbott, Mrs. Lena Shiflet and Hannah Kirkbride of Los Angeles; Messrs. and Mesdames E. B. Smith, Robt. Flook and Rev. and Mrs. J. A. Stevenson. Mrs. Grace Senior; Misses Ada Stark, weather, Mary Talbott, Mary and Celia Cotter, Leslie and Marguerite Smith and Jessie Flook.

### Birthday Party

A birthday surprise party arranged last night for her husband by Mrs. A. M. Robinson, proved a happy affair. Chrysanthemums were used in decorations and ice cream and cake were served as refreshments after the games of progressive finch that were played. Those present were, Messrs. and Mesdames Byron Johnson, Elwin Stearns, F. A. Holbrook, Herbert Walker Coate.

### Card of Thanks

—We desire to express our appreciation of the many kindnesses shown us during the sickness of Mr. George Hogg, and the expressions of sympathy and flowers at the time of the death and funeral.

MRS. GEORGE HOGG, DR. AND MRS. LORIMOR, Hartford City, Ind.

MRS. ANNIE L. HOGG, Son and Daughters.

\$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address: F. J. CHENEY & CO., Toledo, Ohio.

Sold by druggists, 75c.

Take Hall's Family Pills for constipation.

—The Woman's Guild of the Church of the Messiah will give a tea at Mrs. Frank Eyr's at 201 E. 9th Street, Thursday afternoon, from 2:30 to 6 o'clock. Light refreshments, musical programme and a free will offering to apply on the new Guild hall.

## UNITED STATES NAVY REVOLVER IS FOUND BY LOCAL OFFICER

Constable Jackson yesterday found a man trying to sell a United States Navy revolver. The revolver was taken in charge by the officer, it being a misdemeanor for any person to carry either a navy or an army revolver. Jackson found on investigation that the man who had the revolver had bought it from a man who came up from San Diego. Chief Wilson of San Diego informed Jackson that the weapon was stolen from a naval vessel at San Diego two months ago. The sailor who had it reported to his captain that it was dropped overboard.

## Relief for the "Morning After"

Those persons who, after a more or less strenuous night's fun, awake with that extremely uncomfortable sensation known as a "head," will be pleased to know that Rexall Liver Salts offer remarkable relief for this condition.

One teaspoonful in water, repeated several times at hourly intervals, will make you feel like a new man.

Results are guaranteed.

Two sizes, 25c and 50c. Dean's Drug Store. The Rexall Drug Store.

## ST. LOUIS SCHOOLS SERVE STUDENTS

Nourishing Luncheons Sold at Nominal Price—Plan Looks Good

ST. LOUIS, Oct. 25.—Pupils of four public schools, served Monday for the first time with two and a half cent luncheons provided by the board of education, seemed so well satisfied with the food and the arrangements made for serving it that the board will extend the service to all city schools.

Each of the following sold for two and a half cents: Bowl of noodle soup and four crackers; beef and rice croquettes; cup of chocolate and a roll; glass of milk and two slices of bread; and a cup of custard.

The first day's menu will be varied from time to time. A list of food that can be served at the same price has been prepared. This menu ranges from milk and soup to chopped meat, sandwiches, gingerbread and blanc mange.

Public Announcement

I desire to announce that the law business formerly conducted by Montgomery & Tarver will be continued by me at the same office and I will endeavor to deserve the continued confidence and patronage of clients of the old firm.

(Signed) B. E. TARVER

## SUGAR BEET SEED CAME FROM RUSSIA

The Santa Ana Co-operative Sugar Co. has received a carload of sugar beet seed from Russia. More carloads are coming. These beet seed will be distributed among the ranchers who contract to grow sugar beets for the new factory, which will open next summer. The factory builders, Dyer Co. of Cincinnati, are under heavy bond to have the factory in running order before the season opens.

## NEW VARIETY OF SPUD

N. Y. State Agricultural College Raises Cross-bred Potato Smooth As Marble

WASHINGTON, Oct. 25.—Serious attention is being given by Professor Corbett of the Department of Agriculture, and a corps of expert assistants to the potato. At the Honoye Falls (N. Y.) state experimental farm for potato culture they have raised something new in the potato line.

The new potato is a cross between the American, the English and the wild potato of South America, and is as smooth as a marble.

Professor Corbett invented it because careful study showed that the waste in peeling the ordinary American potato was 25 per cent. The English potato has a waste of only 18 per cent in peeling. The new combination tuber will not have over 5 per cent waste.

BAKING CONTEST NOTICE

Ladies having plates or pie tins taken from the baking contest are asked to leave them with Mrs. Geo. Magill, 120 West First street, where the owners will find them.

## FOOD SALE

Thursday afternoon at Remsburg & Lindsey's, corner Fourth and Bush streets.

THE CONGREGATIONAL CHURCH LADIES WILL HAVE ON SALE BAKED BEANS AND BROWN BREAD, CAKES, PIES, ROLLS AND SALADS.

## LOOK THIS OVER

— IT'S INTERESTING —

Many people suppose that a jeweler's stock is composed entirely of articles of luxury.

Nothing could be further from the truth, and to show how sadly mistaken the general public can be, we will give a list, show how necessary the things we carry, really are. For example:

Watches are the measures of time that we all must have.

Chains are needed to safeguard the watches.

Link Buttons are needed to hold the cuffs together.

Scarf pins hold the folds of the tie.

Tie clasps are needed to keep the tie in place.

Hat pins are needed to hold the ladies' hats.

Engagement rings are absolutely essential.

Likewise wedding rings.

Clocks are demanded in every home, office and store.

Knives, forks, spoons and a host of other table pieces are required in eating.

Combs, brushes and mirrors are called for in dressing.

And so it goes. Nearly every article we carry is an absolute necessity and likewise nearly all are suitable for gifts for all occasions.

Christmas is coming and it will be well to bear in mind that we have just what you want and what everyone needs.

## E. B. SMITH

## OPPOSITION AS ON HAND

Those Favoring Military Training Did Not Appear Last Night

Three New Teachers Elected By School Board—Institute Dates

The Board of Education last night received petitions asking the board not to allow military training to be established in the Santa Ana High School. The petitions asking for military training were not received as had been expected, they not being fully signed. The opponents who were present presented their side of the matter. S. M. Davis headed one petition and Mrs. Margaret D. Taylor another, and both spoke against military training.

The school board elected three new teachers last night. They are Mr. Baker for the Commercial High School, and Miss Johnston and Miss Bennett for First and Central schools. Mr. Baker comes from Los Angeles, and at one time was a county superintendent of schools in Nebraska. A communication was received from County Superintendent Mitchell stating that the county and the Santa Ana district institute will be held jointly in Santa Ana, commencing on Dec. 18. Three days are to be held here. The teachers of this county will then meet two days in Los Angeles with Southern California teachers.

Constable C. E. Jackson, who has been on duty as truant officer for two weeks, was last night officially appointed truant officer by the board.

A gas stove, flats and extra lockers were ordered for the high school gymnasium.

### TRY THIS

OVERNIGHT CURE FOR COLD IN HEAD OR CHEST

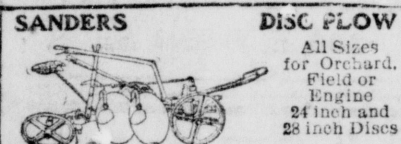

It is Curing Thousands Daily, and Saves Time and Money

Get a bowl three quarters full of boiling water, and a towel. Pour into the water a scant teaspoonful of HYOMEL (Pronounce High-o-mel).

Put your head over the bowl and cover head and bowl with towel. Breathe the vapor that arises for a few minutes, and presto! your head is as clear as a bell, and the tightness in the chest is gone.

It's a pleasant cure. You'll enjoy breathing HYOMEL. You'll feel at once its soothing, healing and beneficial effects as it passes over the inflamed and irritated membrane. 50 cents a bottle, at druggists everywhere. Ask the Rowley Drug Co., Santa Ana, for extra bottle HYOMEL Inhalant.

—If you want a skirt made free, come in Thursday. Crookshank-Beaty Co.

## CONSUMPTION OF BEET SUGAR HAS GREATLY INCREASED IN U.S.

Industry Began 100 Years Ago at Big Cost Per Pound--Beet Sugar Factories Advance Price of Real Estate

S. C. Clinton in the Los Angeles Examiner writes interestingly of beet sugar as follows:

The first refined beet-root sugar produced in commercial quantity was made about 100 years ago, at a cost of approximately 80 cents a pound. The cost of producing cane sugar was then somewhat higher than that of beet sugar.

The amount of raw sugar extracted from the beet at that time varied from 4 to 6 per cent, and the amount of refined sugar obtained was from 1 to 2 per cent of the weight of the beet.

The cost of producing an acre of beets was estimated at approximately \$35, while the yield was from 6 to 25 tons per acre.

The advances that have been made in cultural methods have been offset to a very great extent by the increase in the cost of labor in the United States, so that the actual reduction in the cost of producing beet sugar has been due to the improvement of the beet or to less expensive operations in extracting and refining the product.

Thorough cultivation is another factor in producing good sugar beets. It is a common saying among the Germans that "the sugar must be hoed into the beet."

In no time of its life should a sugar beet be allowed to stop growing, for if it once becomes stunted it is doubtful whether it will ever make as good a beet as it would have been under conditions of continuous growth.

Another way the beet has been improved is by increasing its sugar content. This has been done without increasing the size of the beet.

If a largely increased yield of beets is combined with a much higher sugar content it is entirely possible to obtain three times as much sugar per acre as is produced on an average at the present time.

The present average yield of beets per acre in this country is about 10 tons, and the percentage of sugar actually extracted and refined does not exceed 12, making the average yield of sugar per acre approximately 2400 pounds.

Yields of more than 30 tons of beets per acre are sometimes obtained, and yields of more than 20 tons are common.

From 20 to 25 per cent of the sugar

in the beet has been reported so frequently that it is safe to assume that an average sugar content of 18 per cent is within the limits of possibility.

If an average yield of 20 tons per acre and an average sugar content of 18 per cent could be reached, we would have an average yield of 7200 pounds of sugar per acre.

Clay loams are very satisfactory for sugar-beet production, provided other conditions are favorable; but more depends upon the physical condition of the soil and upon methods of cultivation than upon the particular kind of soil used. The soil, however, should be well supplied with humus and well drained.

During the past few years there has been a remarkable advance in the price of farming lands, especially in those localities where beet-sugar factories are in successful operation.

The production of single-germ beet seed is a method of thinning beets before the seed is planted. Commercial beet seed consists for the most part of from two to seven individual seeds welded by nature into one mass.

It is evident that plants produced from such a mass of seeds must of necessity be very close together, and thus far no mechanism has been devised whereby the plants can be properly thinned. Thus hand labor has to be resorted to.

Repeated efforts have been made to break up the seed balls by passing them through various forms of rollers, but the seed coats are so hard that any device that has been tried not only breaks the coats but likewise the seed balls, thus destroying the germ.

The Department of Agriculture has been more successful in this line by its efforts to produce a single-germ seed, and its scientists have within the past year increased the production of single-germ seed from 2 to 25 per cent.

The yearly consumption per capita has increased eight pounds during the past ten years, that is, approximately 645,000,000 pounds, or 230,000 tons, more sugar was consumed last year than would have been consumed ten years ago had the population at that time been the same as it is today.

This goes to show that the manufacture of beet sugar in the United States, in spite of its wonderful progress during the past few years, has not even kept pace with the increased rate of consumption.

## SPECULATION AS TO THE NEW RAILROAD COMMISSIONERS

(The Watchman in Los Angeles Times)

Next in importance to the Gates candidacy is the probability of Senator Thompson of Alhambra being appointed a member of the State railroad commission. Under the constitutional amendment recently adopted the commission is increased from three to five members. On his recent visit here it is understood the governor indicated that he wanted a recommendation from Southern California for one of the new positions and there has been a movement to recommend Thompson, because of his acknowledged ability and his indefatigable industry. It is understood that the governor made it clear that he will appoint one of the new men from the south. There has been a belief that he would name Meyer Lissner, chairman of the Republican State committee, but if he has asked a recommendation it indicates that he has not such intention. It is also probable that Lissner has no wish to be named. Politics and public office have not been congenial to him of late and it is

equally true that, while there is open friendliness between him and the governor, the latter is not "strong" in the Lissner habit just now.

While Thompson will probably have serious consideration for the railroad commission it is also likely that the need of a practical traffic man will be considered also. Lacking only in traffic experience Thompson is regarded as an ideal man. In addition he possesses the highest esteem of the appointing power. But if a traffic man is to be chosen Thompson's appointment may hinge on whether the governor finds W. R. Wheeler, of San Francisco, willing to take an appointment. If Wheeler or some other northern traffic expert cannot be obtained it is probable the governor will consider F. L. Gregson, traffic manager of the Associated Jobbers, of Los Angeles.

There is no one who says positively what the governor has in mind, but the appearances indicate that both Thompson and Gregson are before him now.

## ARGUE ON DETAILS OF LIABILITY LAW

Commission Decides Interstate Carriers Must Compensate Employees

WASHINGTON, Oct. 25.—The employers' liability and workmen's compensation commission yesterday reached an agreement on the basis of legislation to be recommended to congress. The findings are not final, but they are not likely to be changed materially.

Senator Sutherland, chairman of the commission, outlined the proposed law as follows: "The law provides for payment of compensation by interstate carriers engaged in interstate transportation to employees injured by accident while engaged in such transportation, except in case of willful misconduct to be hereafter specified.

"The compensation is to be paid by the employers directly and not out of a general fund created by any form of taxation. The payment will be compulsory and not subject to election by either employer or employee.

"All claims arising under the law shall be non-assailable and exempt from levy.

"In case of death, payments shall be made to dependents.

"All claims under the law are to be made preferred to lien."

## MOST SEVERE COLD IS EASILY BROKEN

Surely Cures a Cold and Ends Grippe Misery in a Few Hours

—Pape's Cold Compound is the result of three years' research at a cost of more than fifty thousand dollars, and contains no quinine, which we have conclusively demonstrated is not effective in the treatment of colds or grippe.

It is a positive fact that a dose of Pape's Cold Compound, taken every two hours until three consecutive doses are taken, will end the Grippe and break up the most severe cold, either in the head, chest, back, stomach, limbs or any part of the body.

It promptly relieves the most miserable headache, dullness, head and nose stuffed up, feverishness, sneezing, sore throat, running of the nose, mucous catarrhal discharges, soreness, stiffness and rheumatic twinges.

Take this harmless compound as directed, with the knowledge that there is no other medicine made anywhere else in the world, which will cure your cold or end Grippe misery as promptly and without any other assistance or bad after-effects, as a 25-cent package of Pape's Cold Compound, which any druggist in the world can supply.

**Sayings of the Sage of**

**The Kansas Tin Shop**

When we get time we will have something more to say about the fun there is found in business in these latter times and—

Having investigated the matter of comets and like strangers we will report our findings and then—

Well, we may take up some other interesting subjects—but we are too busy just now to consider these weighty matters, and will only say that—

We have lots of things to sell—

Such as Corrugated Roofing Iron

Rubberized Roofing and several cheaper kinds.

We are prepared to sell and put up warm air furnaces—

We have lots of cooking and Heating Stoves, Hardware and Tinware.

We are awfully busy.

### LOS ANGELES PRODUCE MARKET

The future of the market was an advance in the quotations on strictly fresh eggs. Canned stock went up 2 cents, bringing the quotations to 49 cents a dozen, the top figure for the season, and 1 cent more than at the corresponding time a year ago. Case counts showed an advance of 2 cents and sold at 45 cents a dozen. That the prevailing high cost of eggs is not confined to the local market is shown by the reports from all the coast cities. San Francisco quoted candle eggs at 50 cents a dozen, with a firm market. Other grades were not affected, and the market all the way round was reported as ruling firm. There is a scarcity of hens on the market, and dealers have had to depend upon the east for their supply. Egg arrivals were 65 cases.

No change was noted in dairy products. Butter was well received at the revised figures, and a firm market was noted on the better grades. Unattractive stock was inclined to be weak. Most of the offerings were of the better grades, and there was a good outlet for most all grades. Receipts were 47,563 pounds. The light offerings for cheese for the past week served to strengthen the market generally, but with the exception of northern fresh 4 eastern twins, no changes were noted. Northern fresh advanced 1 cent and jobbed in a general way around 17 cents a pound. Eastern twins sold at 16 1/2 cents. Arrivals were 189 pounds.

Continued warm weather has stimulated the demand for most descriptions of deciduous fruits, and the market has shown a steady tone, with the better quality offerings at the maximum figures. Receipts generally have been well up to current needs. Apple quotations, notwithstanding the heavy receipts, have been well sustained. There was a good call for most varieties. Arrivals were 1741 boxes.

Offerings of peaches showed a material shrinkage, and the market as a result developed a firmer tone. Most of the peach offerings sold around \$1.00 a lug box. Grapes continued in free supply. The demand was fairly active at the prevailing rates, and first quality lots kept well cleaned up. Cornichons were quoted around \$1.00 a lug box. Some large strawberries were on the market, and quoted at 10 cents a box. Most dealers were skeptical about handling the stock. It was such that it had to be moved fast, on account of spoilage.

Potatoes showed little change from last quotations, the market maintained a steady tone under moderate offerings, and a limited demand. Receipts were 2770 sacks. There was considerable outside call for onions, and the quoted price showed a market firmness. Arrivals were 7 sacks.

### Tulare County Lands for Sale or Exchange

We represent the most productive section in the state of California. Tulare, the home of the farmer. \$110,000 paid to the dairymen last month for cream.

We have lands to suit purchasers in any size tracts and on any terms. We make a specialty of exchanges. Tulare for Southern California.

Eight 20-acre tracts in the sub-irrigated section near town. Six crops of alfalfa a year without irrigation. These tracts will be sold on terms to suit the purchasers. 100,000 acres for sale and exchange. Write today for information or call at our office, at Tulare, California. Our sales last year amounted to over a Million Dollars.

We are headquarters for alfalfa, fruit, both deciduous and citrus, grape, grain and pasture lands. See us.

### IDEN & GWYN

Tulare, Tulare County, California.

### GOUNOD'S TEST.

The Budding Composer Changed His Schoolmaster's Opinion.

When Gounod was at the school of one who was called the good Papa Pierson he was constantly scribbling musical notes. One day the school master sent for him into his study.

"Your parents complain," said Pierson. "They do not wish any musician in their family. You must be a professional."

"Never!"

"Your only choice is between Greek and Latin."

"But I will be a musician," said Gounod.

"You will? Give it up, I say; it is no profession at all. However, we will just see what you can do. Here's pen and paper. Compose for me a new air to Joseph's words, 'A peine an sortir de l'enfer!'"

It was the recreation hour.

Before the bell sounded for the studies to begin again Gounod came back with his paper completely covered.

"Already?" cried Pierson. "Well, sing it then!"

Gounod sang and accompanied himself and so deeply affected poor Papa Pierson that with tears he pressed him in his arms and exclaimed:

"Oh, my dear boy! Henceforth they may say what they like, but a musician you shall be and nothing else."

From the German.

### LOVE'S LABOR LOST.

He Intended to Be Generous, but His Bride Thought Otherwise.

"What is the matter?" inquired her dearest friend as she was ushered into the boudoir of her newly married chum and found, instead of the vision of happiness she had expected, a disheveled heroine largely dissolved in tears. "What is the matter?"

"Algernon has gone away for a week!"

"But, my child, you don't mean to say that you are such turtle doves that you can't spare him for a week without making a scene like this?"

"Oh, no, it isn't that at all! Of course it is hard to live alone, but I have at last shown me what a monster he is."

"Why, this is shocking! What can he have done? You haven't found he was already married or—"

"No, no, no! It's only that he is a heartless, miserly creature. Only think! I asked him to leave me a check to pay for things while he was away!"

"Well, surely he didn't refuse?"

"No; worse than that—far worse! He just wanted to wound and humiliate me. He left me a check, all dated and signed, complete, except that he didn't put any amount in! Wasn't that very cruel?"

### Analysis of Laughter.

For the benefit of a melancholy world an English professor has been devoting his careful, scientific attention to laughter and has prepared an expert analysis of the whole business according to the Providence Journal. "Laughter," he says, "is a convulsive action of the diaphragm. In this state the person draws a full breath and throws it out in interrupted, short and audible expirations. This convulsion of the diaphragm is the principal part of the physical manifestation of laughter, but there are several accessories, especially the sharp vocal utterance arising from the violent tension of the larynx and the expression of the features, this being a more intense form of the smile. In extreme cases the eyes are moistened by the effusion from the lachrymal glands."—Philadelphia Ledger.

### Walnuts as Food.

The ancients held the walnut in high esteem. Morals could and did exist on acorns, but walnuts were so delectable in taste and flavor, so palatable and nutritious, that they were revered as food only for the gods to dine upon. Modern investigation and modern customs have popularized the uses of the walnut to such an extent that it is now regarded not only as a luxury, but as a food of great nutritive value. A chemical analysis of the nut shows that it is six times as nutritious as meat. No vegetable or fruit, with the possible exception of the olive, can be compared with the walnut as a strength giving and fat producing food. Almonds are possessed of elements of nutrition, but the highest in rank is the walnut.—Manchester Guardian.

### Strangled the Tree.

A Victoria clergyman had an orange and a pine tree in his garden. One spring it was noticed that the orange tree was drooping, and on digging down he found that the roots of the pine, which stood at some distance had twisted around the taproot of the orange tree and were strangling it to death. The offending roots were untwisted and cut away, and the drooping plant revived. The tree eventually died. Then on digging down at a greater depth the clergyman found the pine had attacked the orange root lower down and accomplished its murderous end.—London Graphic.

### He Wanted a Permanent One.

Joshua was buying a fieldglass. "This one," said the clerk, "is just what you want. Its magnifying power is twenty-five times."

"No," Joshua replied, "I want to use it oftener than that."—Success Magazine.

### So He Rose.

An Irish M. P. once declared with due solemnity, "Mr. Speaker, I can not sit still here and keep silent with our rising and saying a few words!"—London Telegraph.

### LEGAL NOTICES

#### NOTICE OF SALE OF REAL ESTATE

In the Superior Court of the State of California and for the County of Los Angeles.

In the matter of the estate of Charlotte L. Noyes, deceased, will sell at public auction to the highest bidder or cash, gold coin of the United States, and subject to confirmation by said Superior Court, on Monday the 30th day of October, 1911, at the hour of twelve o'clock noon, of said day, at the south doorway of the Orange Grove Hotel, between Sycamore street and Broadway, in the City of Santa Ana, in the County of Orange, State of California, all of the right, title, interest and estate of the said Charlotte L. Noyes, at the time of her death, and all the right, title and interest that the said estate has, by operation of law, or otherwise, acquired thereon, or in addition to that of said Charlotte L. Noyes, deceased, at the time of her death, in and to that certain lot, piece or parcel of land situated, lying and being in the City of Huntington Beach, in the County of Orange, State of California, and more particularly described as follows, to-wit: Lot 25, in Block 309, of Huntington Beach.

Terms and conditions of sale: Cash and coin of the United States; ten per cent of the purchase money to be paid on the date of sale; balance on confirmation of sale by said Superior Court; deed of expense of purchase to be paid by the purchaser. Dated this 5th day of October, 1911.

ANNA CORA LEWIS,  
Administratrix of the Estate of Charlotte L. Noyes, deceased.

#### Mighty Queer

The negro on occasions displays a fine discrimination in the choice of words, says the National Monthly.

"You's the best whitewasher in town," inquired the new resident.

"Alo Hall am a boy," said the whitewasher, "I sh sah," answered the colored patriarch eloquently.

"Well, tell him to come and whitewash my chicken house tomorrow."

"Ah don't believe, sah, Ah'd engage Me Hall to whitewash a chicken house, sah."

"Why, didn't you say he was a good whitewasher?"

"Yes, sah, a powe'ful good whitewasher, sah, but mighty queer about a chicken house, sah; mighty queer."

#### To Tell the Truth

Boston girls are not all cold.

There are women in Chicago who have small feet.

There are a few native born Americans in St. Louis.

Also in Milwaukee.

There are a great many southern people who don't say "Suh" and "You'll" for the singular "You."

We are personally acquainted with several Georgians who are not cowards.

## IN THE JUSTICE'S COURT

COUNTY JAIL  
NINETY DAYSBarba and Lopez Pleaded  
Guilty to Disturbing  
the Peace

With his face swollen and black and patched with plasters, Rosalie Barba came into court this morning. With him was Simon Lopez. These two men were in charge of Sheriff Ruddock, who with other officers arrested them near the corner of Hathaway and East First street Monday night.

The two men pleaded guilty to disturbing the peace and each man was sentenced to the county jail for ninety days.

Barba's wife was in the courtroom. On Monday afternoon she went to Deputy District Attorney Koepsel and wanted him to get her a divorce. That same day Barba and Lopez had a fight and when Barba was trying to break into his own home with an ax, declaring he would kill his wife, mother, daughter and son-in-law, one of the neighbors knocked him down with a piece of stove wood.

To Leave County

Frank Reynolds was penitent this morning. He was arrested yesterday morning for creating a disturbance at Bernierke's ranch. This morning he stated that he was intoxicated, and not responsible, and asked the justice to be very lenient with him.

"It is just such fellows as you who

## Dry Cleaning and Pressing

Hand Work

Good men's and Ladies' Suits, Dresses, Coats and Garments and Goods of all kinds. Hats blocked and pressed. All clothes repaired without extra charge.

Thoroughly Experienced. Prices Reasonable.

**Mrs. H. R. Youngling**  
409 Van Ness Ave. Phone, Red 212

are the most dangerous," said Justice Cox. Cox fined Reynolds \$10, Reynolds having promised to leave the county.

"Can't you make it \$5?" asked Reynolds.

"You are lucky to get off with \$10," replied the justice. "Here, take a look at this man Barba." Reynolds viewed the battered face of Barba. "That is about what you will get if you get in the habit of getting drunk, making yourself irresponsible for what you do. Take a lesson from that man's face."

**They Must Appear**

Felicita Gonzales, wife of Lorenzo Martinez, and Marguerite Hernandez, daughter of Martinez, were in justice court this afternoon. They have been held at the county jail on peace disturbance charges and as witnesses in the case of murder against Martinez. The wife was allowed to go, and the girl was given her freedom on \$25 bail, she to appear for trial on Nov. 16th.

NO CASCARET USER  
EVER HAS HEADACHE

A 10 Cent Box Will Keep Your Liver, Stomach and Bowels Clean, Pure and Fresh for Months

—Sick headache, biliousness, dizziness, coated tongue, foul taste and foul breath—always trace them to torpid liver, delayed fermenting food in the bowels or sour, gassy stomach. Poisonous matter clogged in the intestines, instead of being cast out of the system is reabsorbed into the blood. When this poison reaches the delicate brain tissue it causes and that dull, throbbing, sickening headache.

Salts, cathartic pills, oil and purgative waters force a passageway for a day or two—but they don't take the poisons out and have to effect upon the liver or stomach.

Cascarets immediately cleanse and regulate the stomach, remove the sour, undigested and fermenting food and foul gases, take the excess bile from the liver and carry out of the system all the decomposed waste matter and poisons in the intestines and bowels.

A Cascaret tonight will surely straighten you out by morning. They work while you sleep—a 10-cent box from your druggist means inside cleanliness and a clear head for months. Ask any of the millions of Cascaret users if they ever have headache.

—Wanted—Walnut meats at the Dragon. Will pay 20c for nice white ones.

J. W. Shaul, M. D., eye, ear, nose and throat. Glasses fitted. 110 1/2 East Fourth St., Santa Ana. Both Phones.

CAME AT HIM  
ANOTHER WAYNot Finding Owner for Wal-  
nuts, Officer Charged Car-  
rying Weapon

Carmen Flores, arrested by Constable Jackson as a suspected walnut thief, was taken into City Recorder Willson's court this morning on a charge of carrying a concealed weapon. When Flores was arrested the officer found a pearl-handled revolver on him.

While Jackson has not the slightest doubt but what the walnuts Flores, who came from Anaheim, tried to sell here were stolen, the possibility of getting a case against Flores is slim. Walnuts, like Chinese, all look alike, and the nuts may have been stolen and never missed by the owner. As yet no one has been found who could identify the two sacks of walnuts and one flour sack of walnut meats as stolen.

When taken to the recorder's court, Flores pleaded guilty to carrying a concealed weapon and was ordered to pay a fine of \$16 or spend eight days in jail. Flores went to jail.

MADE HORSE SHOE  
BEACON FOR SISTER  
ALOFT IN NIGHT

NEW YORK, Oct. 25.—Miss Mathilde Moisant, the noted woman flyer, met the old predicament last evening of having darkness fall while she was 1200 feet in the air and being compelled to soar about until her brother, Albrecht Moisant, devised a scheme to direct her eastward.

Knowing that his sister could not alight in safety, Moisant threw gasoline on the ground in the shape of a huge horse shoe and soon the beacon was blazing. After a few minutes the aviatress swooped down and landed in the center of the fire.

**FULLER'S LITTLE WONDER**  
Cures Kidney Trouble and Rheumatism  
Gives strength and vitality to weak organs, and builds up the nervous system. New address  
M. L. HOUSE  
235 East Santa Clara Ave.  
Call or phone Black 2152. All orders promptly delivered.

## FOR THE STOMACH

Here's an Offer You Should Not  
Overlook.

—Rexall Dyspepsia Tablets remedy stomach troubles by aiding nature to supply the elements, the absence of which in the gastric juices causes indigestion and dyspepsia. They aid the stomach to digest food and to quickly convert it into rich blood and material necessary for overcoming natural body waste.

Carry a package of Rexall Dyspepsia Tablets in your vest pocket, or keep them in your room. Take one after each heavy meal and prove our assertion that indigestion will not bother you.

We know what Rexall Dyspepsia Tablets are and what they will do. We guarantee them to relieve indigestion and dyspepsia. If they fail we will refund your money. Three sizes: 25 cents, 50 cents, and \$1.00. Remember, you can obtain Rexall Remedies only at our store—The Rexall Store, Dean's Drug Store, 104 West Fourth street.

MISS IDA LEWIS  
DEAD AT NEWPORT

Heroine of Sea Who Saved Lives of 18 Persons—Kept Light-House Half Century

NEWPORT, R. I., Oct. 25.—Miss Ida Lewis, the "Grace Darling of America," died here last night at the age of 72. Miss Lewis was stricken with apoplexy Saturday and never regained consciousness. For over half a century she has kept the light at Lime Rock and has in that time saved eighteen lives. She was a great favorite with all naval officers and prominent Newport people.

A pathetic side light on the death of Miss Lewis came last night when Colonel Wm. Coffin, commanding the Narragansett defense district, gave notice that he had received orders from the War Department to cease target practice during Miss Lewis' illness, the noise from the big guns seeming to trouble the patient. The order came too late.

WIZARD WRIGHT  
SCORED VICTORY

Stayed Aloft Yesterday in  
Glides for Over 9 Minutes  
in Face of Windstorm

KILL DEVIL HILL, N. C., Oct. 25.—Orville Wright went aloft yesterday and remained virtually stationary in his glider, with which he is conducting experiments in aerial stability. He was up nine minutes and forty-five seconds and maintained an altitude of approximately 150 feet.

The record-breaking flight was the seventeenth in a series that began yesterday. Sand, carried by the wind, pelted the aviators, the tiny particles cutting like small shot. In the opinion of the experimenters, no more trying weather conditions in which to make the test of the machine could be found.

When Wright came back to earth after his fourth flight he said: "We only needed the windstorm to prove the merits of our machine. It came today, and I think we may say we are successful. We are not yet through, however. We expect the machine to do greater things."

S. P. OFFICIALS GET  
FULL SHOP FORCE

Strikers Say 'Frisco Places  
Are to Be Filled By Men  
From Middle West

SACRAMENTO, Oct. 25.—Southern Pacific officials here, the strikers allege, have made arrangements to place a full working force in the boiler and machine shops of the company's plant next Monday. Boiler-makers and machinists from Chicago, Kansas City and Omaha, they say, will be brought here to fill the places of the striking mechanics.

PRESIDENT DINED  
WITH TWO FACTIONS

MINNEAPOLIS, Minn., Oct. 25.—That politics makes strange bed-fellows was evidenced during President Taft's visit today. The two Republican factions breakfasted together with the president but there was no spirit of amity present. Senator Nelson and former Congressman Tawney, both standpaters, were on either side of the president, and across the table sat Senator Clapp, leader of the insurgent faction.

President Taft addressed the University of Minnesota students at 11 o'clock and at noon was the guest of honor at a luncheon given by the Young Men's Republican Club.

Here is happiness for you—a perfect washing machine that is very inexpensive. Uses four processes at once—suction, squeezing, rubbing and stirring. Easy running, light and noiseless. Will do more work and better work with less labor than any other washer. We are exclusive agents for Wonder Washers. Horton-Spurgeon Furniture Co.

## Home Seekers' Opportunity!

**Special Excursion**  
**\$13.50-Round Trip-\$13.50**  
**Sleeper, Meals and Hotel Accommodations Free**  
**THURSDAY, OCT. 26**  
**To Merced Colony No. 2**

Merced Colony Number Two and its recent addition, Merced Colony Number Three, comprise 5500 acres of the best land in Merced County. The soil is a rich, deep, sandy loam, underlaid with a fine clay subsoil, containing no hardpan. It is especially adapted to

## Alfalfa, Corn

Sweet Potatoes, Peaches, Grapes, Watermelons, Cantaloupes, Irish Potatoes, Beans, Tomatoes and a score of other fruits, vegetables and cereals. Grand First Prize and Twenty-two special premiums awarded Merced County products at the California State Fair this year. Grand First Prize and First Premiums on Alfalfa and Sweet Potatoes awarded our Colonies' products exhibited at the International Food Exposition.

## Markets

The town of Winton and the station Yam are located at convenient points on the Colony on the main line of the Santa Fe Railway, which traverses the tract. Towns on three other lines of railroad are within easy hauling distance. San Francisco is only 135 miles by rail. The Merced Creamery last year paid the State's highest average for butter fat. Conditions are ideal for Dairymen, Hog Raisers and Poultrymen.

## Irrigation

Merced Colonies Numbers Two and Three are situated on the northeast corner of the irrigation system and are the first tracts to receive the water from the Merced River. Main canals on the Colonies are fifty feet wide; the smallest lateral ditches are twenty-four feet wide. A ditch is extended to the highest point of every lot. A perpetual water right goes with every lot, free. Water in big heads and unlimited quantities furnished in continuous flow during irrigation season.

Surface of the land is smooth. Slopes are correct for proper irrigation and perfect drainage. Soil is absolutely free from alkali. Climate is delightful, healthful and crop-encouraging. Our settlers are the best class of farmers; we invite you to join them.

## 10, 20 and 40-Acre Tracts

Merced Colony No. 3 has just been opened. In this tract you may now buy first choice lots at introductory prices. Even though your capital be limited our
